HOW I READ A PROPERTY LIKE THIS

Price the land first, then credit what's already built. Compare it to other acreage, not to a 4-bedroom on a lot in town. A barn, a pool and guest space already in place are projects you don't have to start.

How to tour acreage (my checklist)

- ☐ **Walk the land, not just the house.** Plan time for the pasture, the woods and the creek.
- ☐ **Bring your plan.** Horses, cattle, a workshop business, family in the pool house? Picture where each one goes.
- ☐ **Ask for the survey and the boundaries** so you know where the property lines run.
- ☐ **Ask about the drive and access** you'll use every day.
- ☐ **Line up a lender who does acreage loans** before you write an offer.
- ☐ **Schedule the inspections you want** (home, pool, outbuildings) inside your inspection period.
