A day in this home

Morning light fills the living room while coffee gets made a few steps away in the open kitchen. Evenings move downstairs to the den, where the stone fireplace sets the scene for movie nights. Out back, the deck looks over the fenced yard, a spot for grilling and slow evenings, with a storage building for tools and gear. The lower-level garage makes unloading easy on a rainy day.

ABOUT THE PHOTOS

How I'd tour it (my checklist)

- [ ] **Walk the flow:** front door, living room, kitchen. Picture your morning routine.
- [ ] **Head downstairs:** the den and fireplace, then the garage. Think about how you'd use the lower level.
- [ ] **Step out on the deck:** look at the fenced yard and the storage building.
- [ ] **Time your drive:** try your commute to work via Columbiana Rd and I-65 at the hour you'd really drive it.
- [ ] **Verify schools:** confirm the school zoning for the address with Homewood City Schools.
- [ ] **Get pre-approved first** so you can move when you find the one.
